This game is worth \$1 (maybe)

Pretty good concept and mechanics, but it's just ugly (animations are especially awful) and dull.. Amazing ♥♥♥♥ing game, the only thing is i hate is players who kill teammates. Otherwise its amazing.. Nefer best girl 100/10

Anyways, the game as a visual novel is really good. The characters, the story, and so on. I see the game more as a personality test since you decide things based on what you would do (if you play it seriously) and that is what makes the game fun.

The tank building part could be improved. Other than that nothing else really.

I really hope that a sequel or a continuation is in the works. Play the game yourself and you'll understand why ;). Cute and simple game. 80% FPS, 20% puzzle, this game keeps on giving as more rooms are added.

Spoiler : If at first you find the game too hard, you can unlock the shield after dying 5 times. But as you improve it's more fun to dodge the bullets then to block them.. One of the best massive multiplayer online party games you will ever find! =D They are also very supportive of the streaming and gaming community and have a great interactive discord and in-game chatroom. Game is really exciting. It is like Dead by Daylight but with 20+ players in 1 room.. Great challenging and enjoyable tower defense game. Highly recommended if you enjoy strategy / tower defense games.. A hilarious bonkers game, that has 'cult classic' written all over it! The kind of imagination and dedication needed to create something so brilliantly bizzare is the reason the indie gaming scene exists. Well worth the extremely reasonable \u00a32. Can't wait for Ye Fenny 2!. Rather entertaining, shows potential

cool game!! 4 player too much fun!!. at the moment its a mess. All of the other reviews sum it up good. The latest update fixed the difficulty curve in the beggining but after that the game feels way to easy. Plus after a while it feels very repetitive. 1. Go to club that you have been consistently going to because most of your fans are there. 2. Choose same personel or personel that links with music 3. Plop more smoke to replace the used up ones. 4. Press play and quickly activate your personels abilities. and repeat. Of course the difficulty can be fixed with a simple patch until they get it right but the content at the moment is insuffiicient for 10 USD. (I got it for 6.50 day one sale). I was also expecting alot more references to Party Hard like perhaps the murderer will come and mess up your party? Mabey someone at your party is a drug dealer and the swat comes? Mabey the police get a noise complaint from your party and it means you have to remove speakers. Simple things like that would make this game amazing and I know they will add it later in the future as the game is barely in early access but it feels a little to early for early access. Also twitch support would be great for marketing.

EDIT: wtf just happened to this game

EDIT: 5 months and no hint of a single update coming, get a refund

EDIT 3 (10/05/18): Still no update basically an abandoned game. gg no re(fund). Playing Driftmoon is a bit like reading an old, quality children's story, back when they weren't just written for children. The graphics are simple, the controls are straightforward, the story is definitely aimed at the younger set and the skills aren't terribly complex. That said, combat is quick and fun, with just enough variation and challenge to be enjoyable without being overbearing, and there are enough skill choices and options to feel like you're both making progress, and making the lead character your own.

If anything, my biggest complaint is that there isn't quite enough game to fully explore the possibilities of crafting, gear and harder enemies that might have come into play with a larger game or a longer story. Not that the story provided is too short -- it's exactly the right size. And even if it was too short, there's a modding tool, so there may be community offerings soon too.

Graphics 2/5, Gameplay 3/5, Story 3/5, Overall 4/5. The whole is definitely greater than the sum of its parts. Worth playing..

THIS IS AMAZING AND I LOVE IT ;D. Shadow Tactics: Blades of the Shogun - Artbook & Strategy Guide

Great asset to have,

Very incredible, and inspirational art. I hate to leave bad reviews, but this game just isn't quite up to par. I like the idea, and the gamplay is decent - when it works. I believe that this game could be fantastic with just a few improvements. Mostly, the controls; it is almost unplayable.

Your hands are not aligned with the controllers, and your grab point is not fixed to your hands so it's a lot of clunky guess work, all the while, you are fumbling around knocking over glasses and the ice machine keeps thinking that you've touched it. It has a lot of potential but the dev just couldn't stick the landing on this one.. A nice little mini-campaign that focuses on a specific theatre of war during the Napoleonic Wars rather than all of Europe. Play as the French, British, or Spanish as you fight for control of the Iberian Peninsula. It has a few new featrues not found in Napoleon in order to add greater depth, but this is still very much the same game.

If you liked Napoleon, then checking this out probably won't be a bad idea. :o
