About This Content

The AGC or 'Autorails de Grande Capacité' were designed by the Canadian manufacturer Bombardier. After delivery of the first of these railcars, SNCF and the regional councils served by TER (Transport Express Régional) were highly impressed with the design and quality of these trains. They were particularly impressed with the modular interior and flexible power choices, with diesel, electric and hybrid 'bi-mode' versions available. A particularly innovative version is the bi-mode, bi-current variant, nicknamed 'BiBi', which can run from diesel power, 1500v DC overhead and 25Kv AC overhead.

The version depicted here is a hybrid Diesel + 1500v DC version, in 'Languedoc' livery and is now available to add to your Trainz collection.

Title: Trainz 2019 DLC: SNCF - AGC Languedoc

Genre: Simulation

Developer:

N3V Games

Release Date: 7 Jan, 2019

a09c17d780

Minimum:

OS: Windows 7 64bit

Processor: Intel 'i' series/AMD K10 series introduced 2009 onwards. 2 physical cores, 2Ghz 64 bit

Memory: 4 GB RAM

Graphics: NVIDIA GT 430 or better/ AMD ATI 5550 or better

DirectX: Version 11

Storage: 100 MB available space

English,French,Italian,German,Russian

BODYGUARD DUTY

WHAT IS BODYGUARD DUTY?

Bodyguard Duty overview

Welcome to the world of the Egyptian gods. Set, a cunning and chaotic deity, has lived a life in his old pantheon's stomping ground. He's gathered a bunch of followers and claimed a new realm for himself; now he's planning to reshape reality in the god realm of the Maabi'ous.

That's the starting point for Set Rising, and this One Sheet adventure is a twist of the gaming experience you'll find between the covers of that book.

BODYGUARD DUTY

Realm: American Grit (London, 1934)

Body Guard Duty

When you're a demigod you've got power, real power, and some people know it. People like Merget VanDee for example, an American movie star in London to promote her latest movie. Secretly though she's an agent for the SPA sussing out other countries for supernatural threats, to see if it's just the USA that's suffering (you can find out more about that in our Noir Knights book). She's also a hero with a telemas, so can spot your demigods and their army.

SUZERAIN

BODY GUARD DUTY

ABOUT THIS MODULE

This module contains 5 pre-gen characters and 5 One Sheets for **Set Rising**, in the Savage Worlds home of the Egyptian Pantheon in the Suzerain Continuum. Yes, it's free. At **Savage Mojo** we want to give everyone an opportunity to try our settings for free.

Included is everything you need to run the material in this module; for instance, it includes all the equipment, Edges, and Powers from the main **Set Rising** module used in these One Sheets. There's also enough **Set Rising** material to give you a superb sample of the **Set Rising** flavor and GM's Guides. Enjoy!

What you need to use this module:

Savage Worlds module.

Suzerain module.

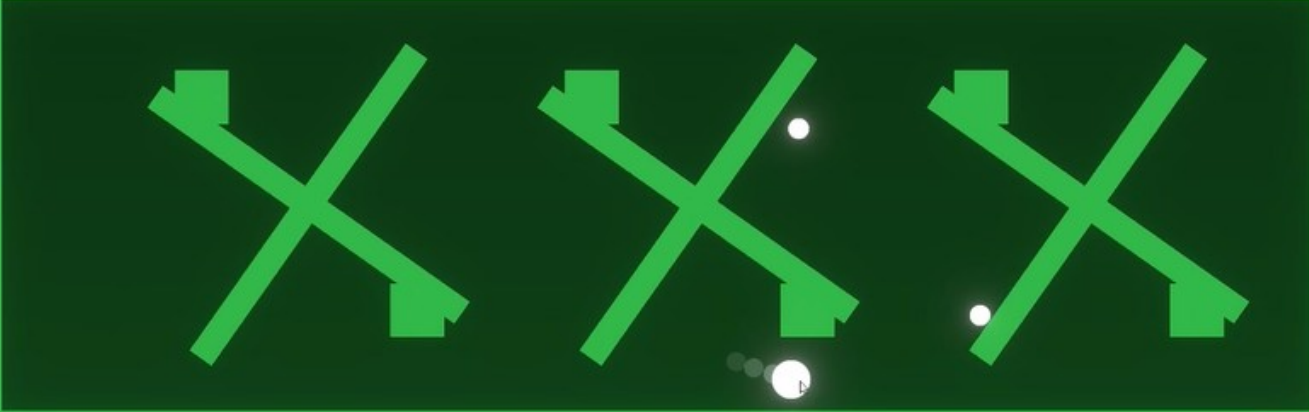

Tips for using this module

Pre-gen images for the characters are included. You may need to move them to your own pc/art file. Drop and drag characters from the archetype list to the character page **BEFORE** adding tokens or portraits.

In the Suzerain Continuum each hero has a Telemas. These are powerful talismans infused by sentient spirits. Telemas have extra Edges that buff their hero. Telemas advance with the hero, gaining one new Edge each time their hero goes up a Rank.

We discussed how best to handle these, since some Telemas Edges are actually weapons, armor, etc. The best choice was to create each Telemas as an NPC ally. You will find them in the NPC list and will need to drop them on the correct character sheet.
